Claims of sexual harassment and hostile work environments continue to impact public safety and police agencies throughout the United States and within higher education. Don't miss this powerful and impactful

program that has been designed specifically for our unique workplace. Model policies and procedures and several important case studies will highlight these two days of interaction instruction and dialogue. While this program is important for all Public Safety/Police officers and staff, it is critically important for all of our front-line command staff and supervisory personnel.

This course will be offered on two consecutive Thursday and Fridays to allow for departments to send as many of their supervisory personnel as possible. We have delivered this training as an in-service training for entire departments and the Sarah Lawrence College Public Safety department will be sending their entire staff.

Space is limited and the classes are just around the corner, so we encourage you to get your command staff registered as soon as possible. You can pay by PO, check or our easy credit card option by calling 585-303-0533.
