Campus Crime Watch

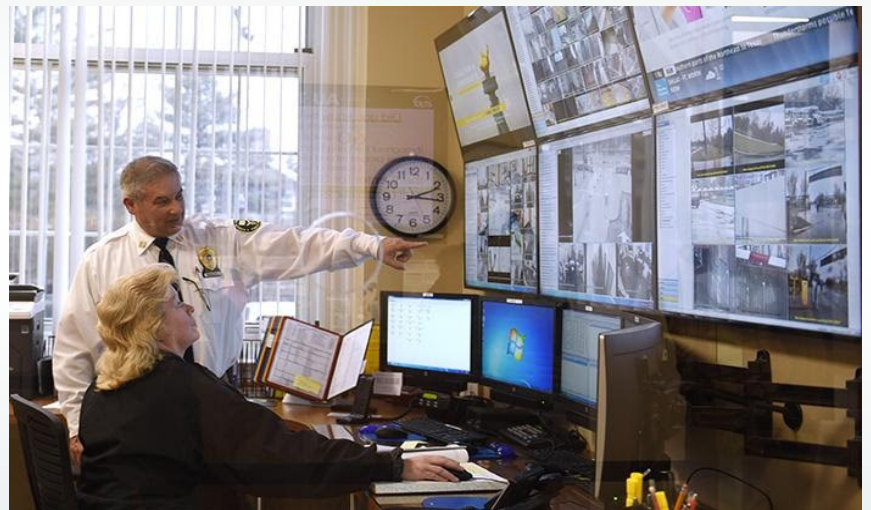

Subject: (U) iPhone Gun

(U) A gun disguised as a mobile phone goes on sale in the US. The Ideal Conceal pistol, a .380 caliber handgun that can be folded up to look like a generic smartphone, will go on sale in the coming months.

(U) Created by Minnesota-based manufacturer Ideal Conceal, the double-barreled pistol can carry two bullets and comes complete with laser sights. The pistol grip can be folded upwards to disguise the weapon as an unassuming mobile phone, leading it to be dubbed the "iPhone gun".

(U) According to The Times, Ideal Conceal has already received 12,000 pre-orders for the handgun, which costs \$395 (£325, €375) and is due to begin shipping during the first quarter of 2017.
